

TIRESIAS – MONOCULAR DEPTH ESTIMATION

Group 5 - Roslyn Collings, Giovani Jonenson, Maryam Sulaiman, Mitchell Vu

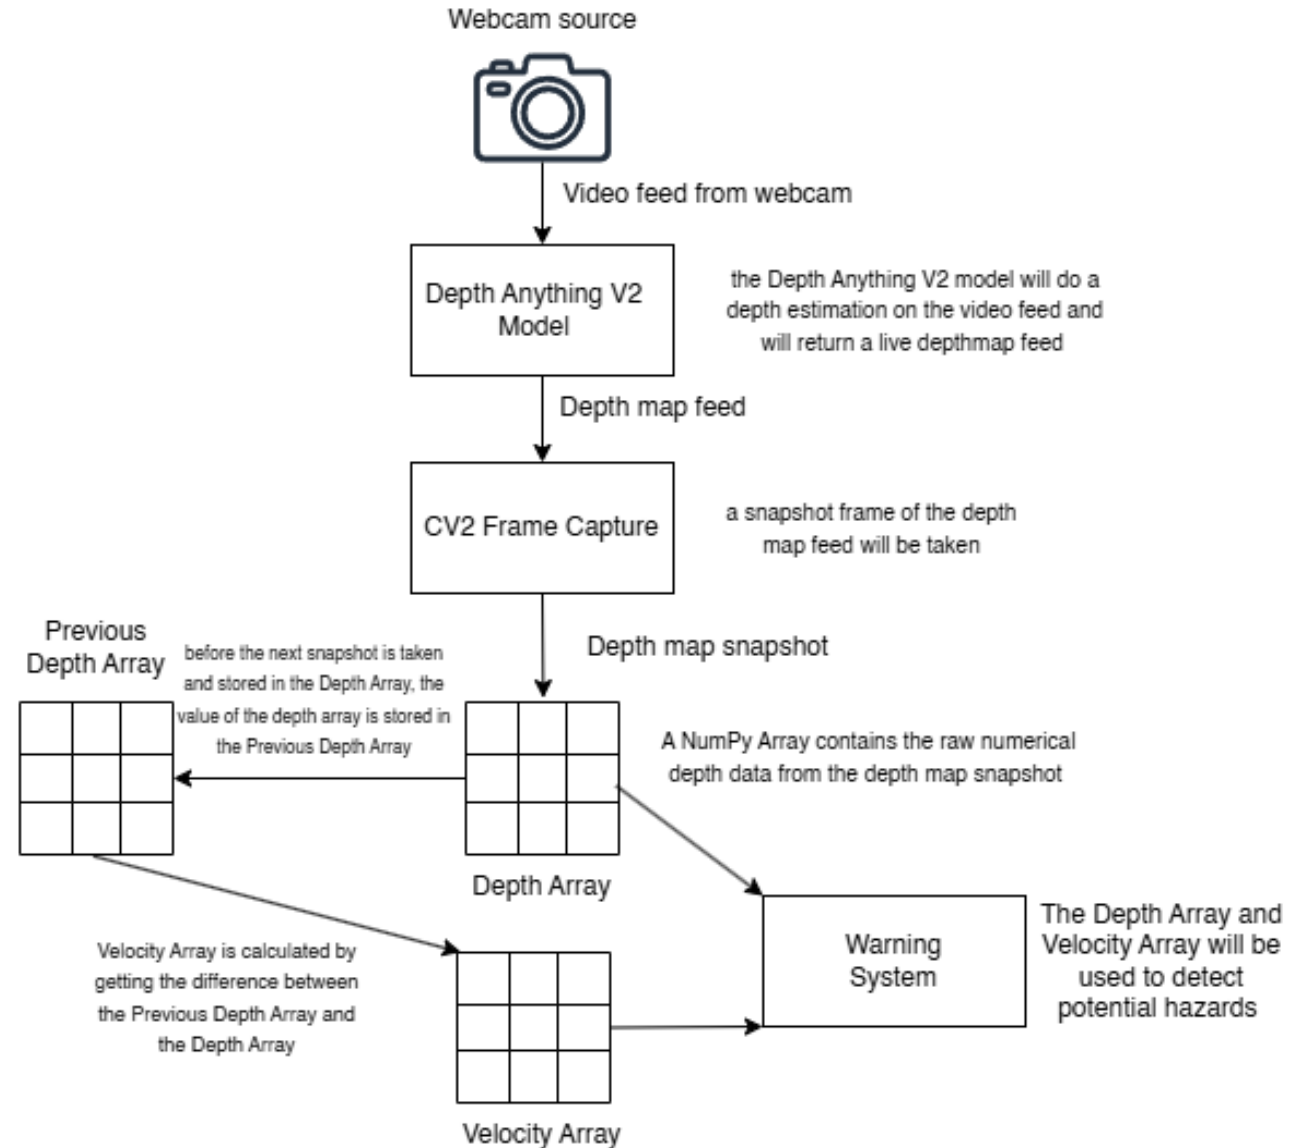

OUR PROJECT

- VISUAL ASSISTANCE TOOL
- DEPTH ESTIMATION
- GIVE USER WARNINGS OF POTENTIAL HAZARDS

DATA PIPELINE

EMERGENCY DEMO VIDEO

The background is a dark gray, almost black, field. Scattered across it are numerous small, white, semi-transparent dots. These dots are interconnected by thin, white, semi-transparent lines, creating a complex, web-like or molecular structure. The lines and dots vary in opacity, giving a sense of depth and movement. The overall effect is reminiscent of a network diagram, a molecular model, or a digital data visualization.

THANK YOU
